SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information is necessary under the Export Administration Regulations (EAR). The EAR states that the Form BIS-711, or a statement on company letterhead, is required for exports to certain countries. These documents provide information on the foreign importer receiving the U.S. technology and how the technology will be utilized. The BIS-711 or letter provides assurances from the importer that the technology will not be misused, transferred or reexported in violation of the EAR. A copy of the

statement must be submitted with the license application if the country of ultimate destination is listed in certain country groups of Supplement No. 1 to part 740 of the EAR. The Form BIS-711 or letter puts the importer on notice of the special nature of the goods proposed for export and conveys a commitment against illegal disposition. In order to effectively control commodities, BIS must have sufficient information regarding the end-use and end-user of the U.S. origin commodities to be exported. The information will assist the licensing officer in making the proper decision on whether to approve or reject the application for the license.

II. Method of Collection

Submitted electronically or on paper.
